Software Development Intern

01 Jan 2025 - Present

- Interned at KodNest, gaining practical experience in Java, MySQL, Frontend Technology, and Manual Testing. Worked with diverse teams to apply learned concepts to real-world project scenarios, while receiving direct mentorship from field experts to strengthen technical proficiency and teamwork skills.

PROJECT EXPERIENCE

- **Cafe Management System**
 - Collaborated on building a cafe management application leveraging Tkinter for the interface, Pillow for image processing, and MessageBox for notifications. Contributed to core feature development, interface layout, and integration of various components, resulting in an effective tool for simplifying cafe order and billing operations.
- **Plant Disease Detectin Using CNN**
 - Engineered a machine learning solution for plant disease identification from leaf images employing Convolutional Neural Networks (CNN) with Python. Leveraged libraries such as TensorFlow, Keras, OpenCV, NumPy, Pandas, and Matplotlib for comprehensive model construction and training. Developed an interactive user interface using Flask, ensuring smooth integration of deep learning models with the application.
